1 yr. -----	3.00	25.00

### Thuja, The Arborvitae

#### THUJA, ARBORVITAE

<b>THUJA OCCIDENTALIS (American Arborvitae)</b>		
3 yr. transplanted 6-8 inches -----	10.00	90.00
3 yr. transplanted 4-6 inches -----	6.00	50.00
3 yr. transplanted 2-4 inches -----	5.00	40.00
3 yr. beds 4-6 inches -----	5.00	40.00
2 yr. 4-6 inches -----	4.00	35.00
2 yr. 2-4 inches -----	3.50	30.00
1 yr. -----	3.00	25.00
<b>THUJA ORIENTALIS (Oriental Arborvitae)</b>		
2 yr. transplanted 8-10 inches -----	8.00	75.00
2 yr. transplanted 6-8 inches -----	7.50	60.00
2 yr. transplanted 4-6 inches -----	6.50	50.00
2 yr. beds 6-8 inches -----	4.00	35.00
2 yr. beds 4-6 inches -----	3.00	25.00
2 yr. beds 2-4 inches -----	2.50	20.00
1 yr. 6-8 inches -----	3.00	25.00
1 yr. 4-6 inches -----	2.50	20.00
1 yr. 2-4 inches -----	2.00	18.00

<b>THUJA ORIENTALIS COMPACTA</b>		
2 yr. transplanted 4-6 inches -----	12.00	100.00
2 yr. transplanted 2-4 inches -----	10.00	90.00
1 yr. 4-6 inches -----	4.00	35.00
1 yr. 2-4 inches -----	3.00	25.00

<b>THUJA ORIENTALIS GLOBOSA</b>		
<b>(Chinese Globe Arborvitae)</b>		
1 yr. beds 2-4 inches -----	5.00	40.00

Cannot guarantee Globosa and Compacta to run true to type.

### Tsuga, Hemlock

<b>TSUGA CANADENSIS (Canada Hemlock)</b>		
4 yr. transplanted 8-12 inches -----	30.00	250.00
<b>TSUGA DIVERSIFOLIA (Japanese Hemlock)</b>		
1 yr. -----	5.00	40.00

## Shrubs and Trees

### ACER

#### ACER PALMATUM (Japanese Maple)

	100	1,000
1 yr. 4-6 inches -----	7.00	60.00
1 yr. 2-4 inches -----	5.00	40.00

### BERCHEMIA

#### BERCHEMIA RACEMOSA (Japanese Supplejack)

12-18 inches -----	6.00	
6-12 inches -----	3.00	25.00

### COTONEASTER

#### COTONEASTER LUCIDA

8-10 inches -----	\$10.00	
6-8 inches -----	8.00	

#### DESMODIUM BICOLOR (Lespedeza)

1 yr. 6-8 inches -----	3.00	25.00
1 yr. 4-6 inches -----	2.50	20.00

#### DESMODIUM FORMOSA ALBIFLORA (Lespedeza)

1 yr. 6-8 inches -----	3.00	25.00
1 yr. 4-6 inches -----	2.50	20.00

### PHOTINIA

#### PHOTINIA SERRULATA (Low Photinia)

1 yr. 2 inch -----	4.00	35.00
--------------------	------	-------

### SYRINGA

#### SYRINGA VULGARIS (Common Lilac)

transplanted 4-6 inches -----	10.00	90.00
2 yr. beds 4-6 inches -----	5.00	40.00
2 yr. beds 2-4 inches -----	4.00	35.00

#### SYRINGA VULGARIS ALBA (Common White Lilac)

1 yr. 2-4 inches -----	4.00	35.00
------------------------	------	-------

### TAXODIUM

#### TAXODIUM DISTICHUM (Baldcypress)

1 yr. 8-10 inches -----	7.00	60.00
1 yr. 6-8 inches -----	6.00	50.00
1 yr. 4-6 inches -----	5.00	40.00

## Vines

#### CLEMATIS VITALBA

2 yr. -----	8.00	
-------------	------	--

### HEDERA

#### HEDERA HELIX (English Ivy)

2 yr. beds (large leaf) -----	4.00	35.00
2 yr. 2 1-2 inches pots (small leaf) ----	15.00	125.00
2 yr. beds (small leaf) -----	4.00	35.00

### VINCA

#### VINCA MINOR (Common Periwinkle) (Evergreen)

1 to 3 branches -----	2.00	18.00
-----------------------	------	-------

## YUCCA

### YUCCA

#### YUCCA FILAMENTOSA (Common Yucca)

2 yr. 6-8 inches -----	6.00	50.00
2 yr. 4-6 inches -----	5.00	40.00

## REGALE LILY

#### LILIUM REGALS (Royal Lily)

1 yr. bulbs -----	15.00	125.00
-------------------	-------	--------

## Hardy Native Deciduous Shrubs

#### AZALEA ARBORESCENS (Sweet White Azalea)

6 to 12 inches. Transplanted -----	\$3.75	\$35.00	\$300.00
1 to 1½ feet. Strong transplanted bushy plants -----	5.00	45.00	
1 to 1½ feet. Extra-heavy transplanted clumps -----	8.50	80.00	

	10	100	1,000
2 to 3 feet. XX heavy transplanted clumps -----	22.50		
Strong cut-back clumps for growing on, X nice -----	4.50	40.00	350.00
<b>CALENDULACEA (Flame Azalea)</b>			
6-12 inches. Transplanted-----	3.50	30.00	
1-2 feet. X Grade collected clumps--	4.50	40.00	350.00
2-3 feet. X Grade collected clumps--	7.50	65.00	600.00
3-4 feet. X Grade collected clumps--	12.50	100.00	900.00
Strong select collected clumps, cut back for growing on-----	4.00	35.00	300.00

# PLANT YOUNG'S EVERGREENS FOR PROFIT

---

Evergreens costing you from 2c to 10c now will sell for \$1.50 to \$3.00 within two or three years.

Do you grow your own, or do you pay some one else a handsome profit to grow them for you?

**LOOK AHEAD AND SUCCEED**

## **10 per cent DISCOUNT**

**For Next Thirty Days if Purchase Price  
Accompanies Order**

### **HOW TO PLANT**

My stock comes to you packed in pure moss. I have a standing offer of \$500.00 to any one who can show me a better method of packing than the method I use. Roots of evergreens must be kept moist. I puddle when digging and again when packing. Exposure to sun or wind will set the resinous sap in evergreens and nothing will revive them. Immediately on receiving shipment unpack the plants at once. Dip the roots in a mud puddle and if you can't plant at once cut open bundles and spread the plants out in a trench. Be sure to pack the soil firmly about the roots. Water but keep the tops dry and cover lightly with straw to protect from sun and wind.

In planting one and two year evergreen seedlings I find the most successful and economical method is to plant in beds. Spade the soil deeply, mixing well rotted manure in as the soil is spaded. Stake out the beds six feet wide and plant in rows six inches apart. Set the plants three or four inches apart in the rows and be sure and firm the soil well around the roots. After which water thoroughly and mulch with manure or leaves, cover the bed with laths or brush as fast as planted, have this shade raised about twelve inches above the bed. You can drive in good heavy stakes on which stretch wire to hold this protection. Leave this shade on the first year, remove in late spring of second growing season. Keep the soil worked with a hand weeder and water thoroughly as often as required to keep the soil moist.

Some of my two year stock can go directly in field rows. For instance, Boxwood, Cedrus Libani, Cedrus Deodara, Chamaecyparis, Cryptomeria, Cupressus in 6" and over, Ligustrum, Pines and Thuja Orientalis. Need but little water and grow too fast to handle in beds. After planting in field rows mulch the plants with manure or straw to protect from rapid freezing and thawing during winter planting and to hold moisture in spring planting.
